Investor Presentation
2025 RESULTS

DISCLAIMER

This presentation (the "Presentation") has been prepared by Joint-Stock Commercial Bank ForteBank (the "Bank") solely for use in connection with the investor call relating to the Bank's financial results for the year ended 2025. By attending the presentation or accessing this Presentation, you are deemed to have agreed to the terms set out herein.

This Presentation is for information purposes only and may not be reproduced, distributed or published, in whole or in part, for any purpose without the prior written consent of the Bank. The distribution of this Presentation in certain jurisdictions may be restricted by law, and persons into whose possession it comes are required to inform themselves about and to observe any such restrictions.

The information contained in this Presentation has not been independently verified and does not purport to be full or complete. All information is subject to change without notice. No representation or warranty, express or implied, is made by the Bank, its affiliates, advisers, directors, officers or employees as to the accuracy, completeness or fairness of the information or opinions contained herein, and no reliance should be placed on them. None of the Bank or any such persons shall have any liability whatsoever (including, without limitation, in respect of any negligence) for any loss arising from the use of this Presentation or its contents.

This Presentation does not constitute or form part of, and should not be construed as, an offer to sell, issue or subscribe for, or a solicitation of any offer to buy or acquire, any securities of the Bank in any jurisdiction, nor shall it form the basis of or be relied upon in connection with any contract, commitment or investment decision. This Presentation does not constitute investment, legal, tax or other advice, and no fiduciary duty is owed to any recipient.

Certain financial and other information contained in this Presentation may not have been audited, reviewed or verified by an independent auditor and may be based on management estimates or internal data. This Presentation may include alternative performance measures ("APMs"), which are not defined under IFRS and should be considered as supplementary to, and not a substitute for, measures prepared in accordance with IFRS.

This Presentation does not constitute an offer of securities for sale in the United States. The securities of the Bank have not been and will not be registered under the U.S. Securities Act of 1933, as amended, and may not be offered, sold or delivered in the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements thereof. No public offering of securities is being made in the United States.

In the United Kingdom, this Presentation is directed only at persons who have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the "Order"), or who fall within Article 49(2) of the Order (together, "relevant persons"). This Presentation must not be acted on or relied upon by persons who are not relevant persons. Any investment activity to which this Presentation relates is available only to relevant persons and will be engaged in only with such persons.

This Presentation may contain forward-looking statements, including statements regarding the Bank's plans, objectives, strategy, future performance and financial condition. Forward-looking statements involve known and unknown risks, uncertainties and assumptions that may cause actual results or performance to differ materially from those expressed or implied. No reliance should be placed on such statements. The Bank does not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Where this Presentation contains information obtained from third-party sources, such information has not been independently verified, and no representation or warranty is made as to its accuracy or completeness. The inclusion of such information does not imply endorsement by the Bank.

The information and opinions contained in this Presentation are provided as at the date hereof and are subject to change without notice.

Asset Quality

forte

DIVERSIFIED LOAN PORTFOLIO

NET LOANS [KZT BLN]

- Loan portfolio increased by 103%, driven by Forte’s strong organic growth and the acquisition of Home Credit, bringing the market share to 10%
- Forte’s unsecured loans share decreased from 25% to 13% YoY, while the acquisition of Home Credit lifted it to 37% at the portfolio level, sharpening the retail mix and supporting growth
- Share of secured loans issued to retail clients increased to from 13% to 17%, reinforcing the quality mix of the retail portfolio
- Business loans expanded by 45% on the back of strong organic growth, strengthening its market share to 12.5%

GROSS LOANS BY BUSINESS SEGMENT AS OF 31-DEC-25 [%]

Note: Exchange rate of 505,53 KZT for 1 USD as of 31.12.2025

QUALITY LOAN BOOK

COST OF RISK [% , GROSS LOANS]

- CoR continued its downward trend, reaching 0.6% in YE2025, driven by:
 - a high share of unseasoned new originations and a shift toward more secured lending
 - focus on enhanced retail collections drove a 70% increase in recoveries, supported by stronger performance across unsecured consumer loans and legacy portfolios
- Coverage below 100% reflects the portfolio's stronger vintage mix, higher collateralization across both performing and non-performing loans, and conservative collateral-based LGD assumptions

14.7 KZT bln provided to green financing projects

Terminology	Definition
Return on average assets	Return on average assets is calculated based on the opening and ending balances of each applicable period. For consistency of presentation, amounts for the six-month periods ended 30 June 2025 and 2024 are calculated by multiplying the value of the profit in formula by 2. Such amounts should not be treated as any forecast of future returns.
Return on average equity	Return on average equity is calculated based on the opening and ending balances of each applicable period. For consistency of presentation, amounts for the six-month periods ended 30 June 2025 and 2024 are calculated by multiplying the value of the profit in formula by 2. Such amounts should not be treated as any forecast of future returns.
Cost-to-income ratio	Cost-to-income ratio is calculated as general and administrative expenses divided by the sum of operating income. Sum of operating income includes net margin on interest and similar income, net fee and commission income (calculated as commission income minus commission expense), net gain/(loss) from trading in foreign currencies, net gain/(loss) on financial instruments at fair value through profit or loss, net gain/(loss) on derecognition of investment securities measured at fair value through other comprehensive income, net gain/(loss) on derecognition of financial assets measured at amortised cost, net loss on modification of a liability that results in derecognition, dividends received and net other income/(expenses).
Net Interest Margin	Net interest margin is calculated as net margin on interest and similar income divided by average interest-earning assets. The average interest-earning assets are based on the average of the quarter-end balances within each applicable period. Interest-earning assets include loans and advances to customers, investment securities, cash and cash equivalents (excluding cash on hand) and due from other banks. For consistency of presentation, amounts for the six-month periods ended 30 June 2025 and 2024 are calculated by multiplying net interest margin formula by 2. Such amounts should not be treated as any forecast of future margin.
Allowance for loan losses / Gross loans	Allowance for loan losses / Gross loans is calculated as allowance for expected credit losses as at the period end divided by total loans and advances to customers, gross as at the period end.
Interest received / interest accrued	Interest received / interest accrued is calculated as interest received on loans to customers divided by the interest income accrued on loans to customers.
Total liquid assets	Total liquid assets represent cash and cash equivalents and investment securities measured at FVOCI divided by the total assets.

Terminology	Definition
Loan to deposit ratio	Loan to deposit ratio represents gross loan portfolio divided by the current accounts and deposits of customers.
Regulatory Capital Ratio	Regulatory Capital Ratio (ratio of regulatory capital to risk weighted assets) is calculated based on NBK standards.
Capital Adequacy Ratio	Capital Adequacy Ratio (ratio of tier 1 capital to risk weighted assets) is calculated based on NBK standards.
CET1 Ratio	CET1 Ratio (base capital to total risk weighted assets) is calculated based on NBK standards
Non-performing loans as a proportion of the loans, gross (NPL ratio)	Non-performing loans are defined as loans and advances to customers, gross, with overdue payments of principal loan amount and/or interest by more than 90 days as at the period end. NPL ratio is calculated as non-performing loans divided by total loans and advances to customers, gross as at the period end.
Non-performing loans coverage	Non-performing loans coverage is calculated as the amount of allowance for expected credit losses as at period end divided by the total amount of the Non-performing loans (as defined in Note above) as at the period end.
Credit impaired loans / gross loans	Credit impaired loans / gross loans is calculated as Stage 3 and POCI (credit-impaired) loans and advances to customers, gross as at the period end divided by loans and advances to customers, gross as at the period end.
Cost of risk	Cost of risk is calculated as credit loss expenses on loans to customers divided by average gross loan portfolio (based on the opening and ending balances of each applicable period). For consistency of presentation, amounts for the six-month periods ended 30 June 2025 and 2024 are calculated by multiplying the value of the credit loss expenses on loans to customers in formula by 2. Such amounts should not be treated as any forecast of future cost of risk.
Risk-Weighted Assets (RWA) density	Risk-Weighted Assets density is calculated as total risk-weighted assets, contingent liabilities, operational and market risk divided by total assets.
MAU	Monthly active users
